**Celebrate Pro Bono, Dedicated Voices from local pro bono attorneys:**

My practice as a family law attorney frequently involves negotiation and litigation of high-income, high-asset issues in divorce. While I find those cases challenging and rewarding, they do not provide the immediate gratification I receive when I give my time as a volunteer family law attorney for the pro se divorce clinics. For a few hours of my time, I am able to assist many people in obtaining the access to the courts to which they are entitled and to achieve the resolution in their personal lives that would otherwise have seemed unachievable to them.
